**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 04 June 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

### **DETAILED ACTION**

This is the sixth office action for U.S. Application 09/600,209 for a Material Support Stand filed by Brad Neilson on July 12, 2000. Claim 13 is pending.

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 13 is rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 3,854,588 to Kinard. Kinard discloses an equipment support stand that could be used on an underground mining machine. The stand has a base (6) adapted to stand on a surface of the machine adjacent to an apparatus, an upstanding rack (16, 18, 19, 21) mounted to the base, the rack being shaped and configured to hold and/or support items, and a plurality of clamps (11, 12) which incorporate a hook formation adapted to pass through an aperture in the surface of the machine and hook beneath the surface to thereby rigidly fix the stand to the surface. The hook formation is tensionable by an over center locking lever (8) connected thereto, which, when tensioned, will tightly clamp the stand to the surface.

### ***Response to Arguments***

Applicant's arguments filed June 4, 2009 have been fully considered but they are not persuasive. Applicant argues that the element identified as a locking lever is a sleeve. However, the broadest definition of lever is "a projecting handle used to adjust or operate a mechanism" –The American Heritage Dictionary of the English Language, Fourth Edition. The element 8 is a projecting handle that is used to adjust a mechanism and therefore meets the broadest definition of lever.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
